<p>Gather pictures of new and old – this could be people, toys, or technology – anything that interests you! Place these on a timeline in the order that you think they were created – oldest first and newest last.</p>		<p>Design a costume for someone from a period of time in the past. Research what they would have worn first, and gather photos of this. Then draw your own costume with labels – and then have a go at making it! Be ready to wear your costume at the gallery...</p>	
<p>Place the significant dates on different time periods on a timeline in the correct order. Research a famous person from each of the key time periods on your timeline and add them to your timeline. Make sure you use your understanding of numbers to get the dates in the right order!</p>		<p>Create a design for a time machine. It could be something like the Tardis, or the car from Back to the Future! Research these and other time machines to help you with your ideas and gather this research. Create a labelled diagram of how it works. And then have a go at making a model of it to share at the gallery!</p>	
<p>Chose a particular time period that interests you; Romans, Vikings, Greeks, Egyptians. Research the time period that their era was, and how long it lasted for. How long ago was this from today? Create a map that shows where in the world they were historically based – for some eras this might be in more than one area.</p>		<p>Chose a piece of art work or style of art work from a particular period of time. Who was the artist and when did they live? Write a report on who they were. Create your first draft of your own version of this piece of art. What techniques might you use? Self-critique your first draft – how could I improve it? And then have a go at a final version to share at our gallery!</p>
