

Weekly News... Friday 11th September

**Our target attendance is 96.1%**

Hello, welcome back! It has been wonderful having the children back in school, hearing their voices and seeing their smiling faces—we are so proud of how well the children have returned to school and would also like to say thank you to you as parents for all the support you have given us by following the guidance and arrangements that we have put into place.

This week, the children have been learning about these rules and procedures too and have followed them well. They have also created their own classroom rules alongside our values to ensure their classroom is a happy place to be.

On Wednesday, we had our 'hook' to begin our new whole school challenge pack 'History in the making'. The children experienced an interactive timeline on the field to investigate sources from different time periods. The last section for 2020 was empty. Children have been given the challenge to reflect and represent 2020 to the future class of 2070 through creating outcomes for a time capsule. Through this challenge pack, children will understand that we are part of History and that people will learn about events of this year in the future, as well as being able to make links to events in the past.
